## **Preface**

National Education Act B.E.2542 and Amendments B.E. 2545 Section 47 says : “There shall be a system of education quality assurance to ensure improvement education quality and standards at all levels. Such a system shall be composed of both internal and external quality assurance. The system, criteria, and methods for quality assurance shall be as stipulated in the ministerial regulations.”

Assumption University has established its criteria for quality assurance even before the announcement of the National Education Act B.E. 2542 because it has realized the importance of educational quality and standards especially at the international level.

One of the criteria which can help the University to improve its performance is a survey of graduated students' satisfaction. The survey of satisfaction becomes a practice of the University conducted by the Institute for Research and Academic Services.

We do hope that this satisfaction survey of the graduated students in the academic year 2018 will be of interest and usefulness to all people concerned.

## **EXECUTIVE SUMMARY**

The main objective of this research, entitled *A Study of AU Graduates' Satisfaction toward Program Quality (Class 47)*, is to investigate the satisfaction of Assumption University graduates of Class 47 on seven aspects of the University's performance: Programs, Lecturers, Teaching and Learning, Evaluation, Student Advising, Extra-curricular Activities and Learning Development/Improvement. The samples in this study included the graduates from both undergraduate and graduate programs of the Class 47. Out of the total numbers of 3,089 graduates, there were 2,510 Bachelor's degree, 519 Master's degree, and 60 Doctoral degree graduates. The Online Graduates Registration (OGR) System was employed in the data collection procedure, and descriptive statistics including numbers, percentage, mean, and standard deviation was used in the study as well. The findings are summarized as follows:

### **Profiles of the Respondents**

Out of the total number of 3,089 respondents, the percentages of the Bachelor's degree, Master's degree, and Doctoral degree graduates are 81.3% (2,510), 16.8% (519), and 1.9% (60) respectively.

### **Findings**

The responses from the OGR survey questionnaires are analyzed, and the findings are presented according to the seven aspects of the University's performance.

#### ***Programs***

The respondents' satisfaction on the aspect of Programs is rated at a high level with the average score of 4.27. The respondents are most satisfied with the up-to-date and well- designed contents (4.27). The respondents are least satisfied with the knowledge acquired that enables them to get jobs easily (4.26). The University should consider improving this aspect as a first priority.

#### ***Lecturers***

The respondents' satisfaction on the aspect of Lecturers is rated at a high level with the average score of 4.30. The respondents are most satisfied with their knowledge and experiences that are related to the courses they teach (4.33), their teaching syllabus contents within the time-frame given (4.32), and their encouraged students to engage in self-directed learning and self-development. (4.31) respectively. The lowest average score is 4.26 which belongs to "Lecture have utilized effective teaching methodology." It should be considered improving as a first priority.

#### ***Teaching and Learning***

The respondents' satisfaction on the aspect of Teaching and Learning is rated at a high level with the average score of 4.29. The respondents are most satisfied with teaching and learning activities that help to achieve objectives of the five learning domains (morals and ethics, knowledge, cognitive skills, interpersonal skills and responsibility, and analytical skills, communication and information technology) (4.34). The lowest scores of graduated students' satisfaction are 4.27, 4.27, 4.27, and 4.26 which belong to Item 9, 11, 12, and 13 respectively. The University should considered improving these 3 indicators of teaching and learning as priorities.

### ***Evaluation***

The respondents' satisfaction on the aspect of Evaluation is rated at a high level with the average score of 4.26. The respondents are most satisfied with the fairness, transparency, and verifiability of the evaluation methods and the assessment of performance have got the score of 4.27. The correspondence between the evaluation methods and the objectives of the course has got the lowest score of 4.26, and evaluation methods and assessment of students' performance carried out as specified in the course syllabus (4.25). Thus it should be improved as a first priority of this aspect.

### ***Student Advising***

The respondents' satisfaction on the aspect of Student Advising is rated at a high level with the average score of 4.29. Both indicators of this aspect, namely, advice and guidance given when needed and advice including learning, study plan, registration and other problems, have got the average score of 4.28 and 4.31. Thus the high level of satisfaction should be maintained and more increased.

### ***Extra-curricular Activities***

The respondents' satisfaction on the aspect of Extra-curricular Activities is rated at a high level with the average score of 4.28. The two indicators of this aspect, namely, the first orientation (Freshmen Orientation), and the enhancement of knowledge have got the highest scores of 4.31. The lowest scores of 4.24 and 4.25 belong to the last orientation and the establishment of networks respectively. Thus the University should improve both the first and the last orientations.

### ***Learning Development/Improvement***

The respondents' satisfaction on the aspect of Learning Development/Improvement is rated at a high level with the average score of 4.40. The respondents are most satisfied with interpersonal skills and responsibility (4.43), knowledge, analytical analysis (4.40), and cognitive skills (4.38) respectively. The graduates are least satisfied with morals and ethics (4.37). Thus the University should put an emphasis on how to help students improve their morals and ethics.

## **Rationale**

A higher education institution is responsible for producing highly qualified persons, building body of knowledge, and promoting the development of the country. Higher education institutions have four main missions: teaching and learning or producing graduates, doing research, giving academic services to the society, and preserving arts and culture. According to the National Education Act BE 2542 (1999), quality assurance is a must for all educational institutes at all levels. The Section 47 says, "There shall be a system of educational quality assurance to ensure improvement of educational quality and standards at all levels. Such as system shall be comprised of both internal and external quality assurance. The system, criteria, and methods for quality assurance shall be as stipulated in the ministerial regulations."

Assumption University has realized the importance of quality assurance, so it has developed systems and mechanisms for the sake of excellence and standards. One of its practices is a satisfaction survey of its graduates. This kind of survey is conducted every year. It becomes a usual practice. The results are to be used for improving the University's performance. The survey includes seven components, namely, Programs, Lecturers, Teaching & Learning, Evaluation, Student Advising, Extra-curricular Activities, and Learning Development & Improvement. This year the survey was conducted with Class 47 of the graduates.

## **Research Objectives**

1. To study the satisfaction level of the graduated students, Class 47, toward program quality with respect to 7 components.
2. To compare the program quality from the perspective of all levels graduated students, Class 47

## **Scope of Research**

This research was conducted to study the perception of the graduated students, Class 47, with respect to Programs, Lecturers, Teaching & Learning, Evaluation, Student Advising, Extra-curricular Activities and Learning Development / Improvement. The data was collected from the graduated students at all levels.

## **Definitions of Terms**

**Graduates** refer to the graduates of Class 47 at all levels from all faculties.

**Assumption University's program quality** refers to the quality of the seven components of Assumption University.

## **Expected Outcome**

The AU administrators and concerned people are supposed to get the information to improve the University's performance based on the satisfaction survey of the seven components.

## **Population and Samples**

The total number of 3,089 respondents include 2,510 Bachelor's Degree, 519 Master's Degree, and 60 Doctoral Degree graduates.

## Research Tools

The tools used in this survey are the questionnaires with a 5-level Likert Scale which contain the research questions concerning the seven aspects of the program quality, namely, Programs, Lecturers, Teaching and Learning, Evaluation, Student Advising, Extra-curricular Activities, and Learning Development /Improvement.

## Scoring and Interpretation

The researchers used five levels of Likert Scale to measure the satisfaction of Assumption University's performance. All five levels are described as follows:

(Satisfaction)	(Scoring)
Very much	5
Much	4
Moderate	3
Little	2
Very little	1

### **Score Interpretation**

1.00-1.50 = very low level

1.51-2.50 = low level

2.51-3.50 = moderate level

3.51-4.50 = high level

4.51-5.00 = very high level

### **Data Collection**

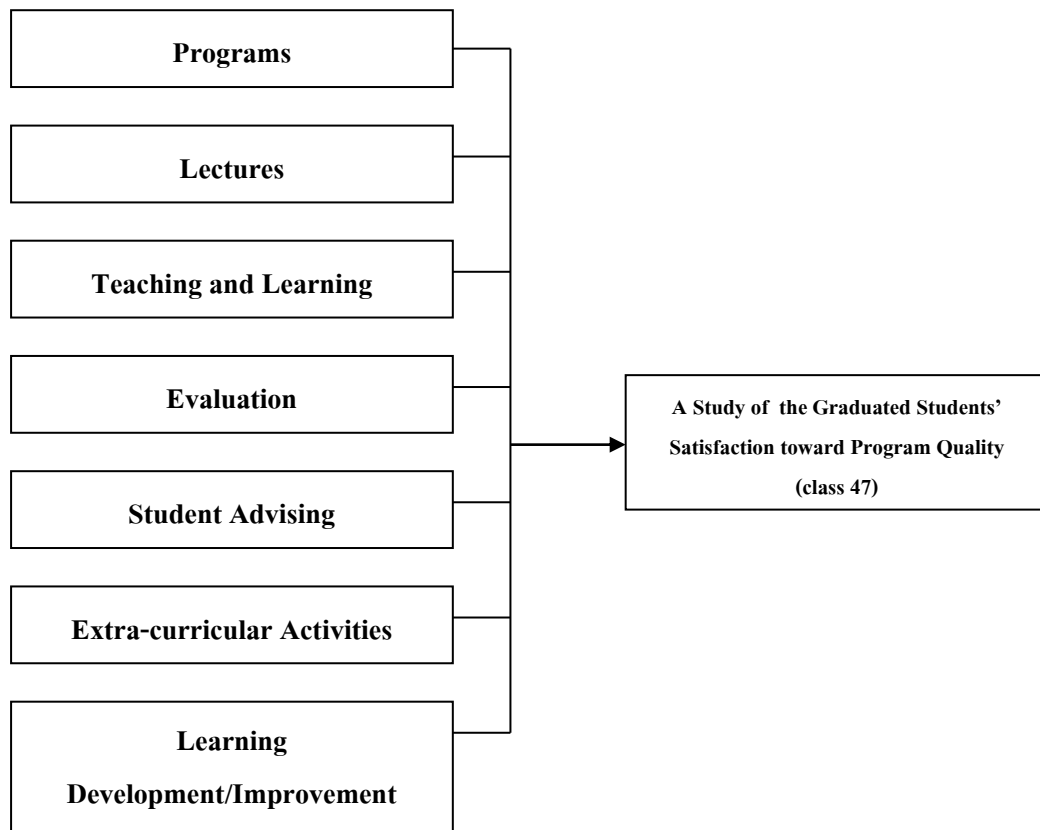

The researchers collected data by using the online questionnaire called “the Online Graduates Registration (OGR).” The graduated students must answer the entire questionnaire as a requirement prior to the graduation registration.

### **Data Analysis**

The researchers used the SPSS for Windows statistical analysis program in analyzing data.

Descriptive Statistics, such as percentage, mean, standard deviation, was used in data analysis. The study was conducted to evaluate the quality of the University programs.

### **Survey of Seven Aspects**

## Research Results

The results of the survey are described as follows:

Part 1: Basic Information of the Respondents.

Part 2: Satisfaction of the University Program Quality.

Part 3: Satisfaction Comparison of the Three Levels

### Part I : Basic Information of the Respondents

Basic information of the respondents is shown in the following table.

**Table 4: Numbers and Percentages of the Respondents' Personal data**

	<b>Total</b>	<b>3,089</b>	<b>100.0</b>

Out of the total number of 3,089 respondents, 61.1% are female, and 38.9% are male. Their ages are divided into three ranges: (1) 19-30 years olds: 92.7%, (2) 31-40 years old: 5.4%, and (3) over 40 years old: 1.9%. Out of the total number of respondents, the ratios of the Bachelor's Degree, Master's Degree, and Doctoral Degree graduates are 81.3%, 16.8%, and 1.9% respectively.

## **Part II : Satisfaction of the University Program Quality**

The satisfaction survey was conducted among the Assumption University graduates at all levels. The survey explored their views of Programs, Lecturers, Teaching and Learning, Evaluation, Student Advising, Extra-curricular Activities and Learning Development / Improvement. The results are shown in Table 5 - 25.
