Preface

Preface

The National Education Act B.E. 2542 and Amendments B.E. 2545 Section 47 says: “There shall be a system of educational quality assurance to ensure improvement in educational quality and standards at all levels. Such a system shall be composed of both internal and external quality assurance. The system, criteria, and methods for quality assurance shall be as stipulated in the ministerial regulations.”

Assumption University established its quality assurance criteria long before the National Education Act B.E. 2542. Since its inception, it has realized the importance of educational quality and standards, especially at the international level.

One of the criteria that can help a university improve its quality and performance requires conducting a job placement survey. The job placement surveys have become an essential practice at Assumption University. It is regularly undertaken to gauge the quality of our graduates. Institute for Research and Academic Services (IRAS), the main research entity at Assumption University is responsible for conducting this survey.

We hope that this job placement survey of the graduated students conducted in the academic year 2022 will be of interest and useful to all concerned.

The Suggestion of Assumption University Graduates

The Class 50 of AU Graduates have given recommendations for improving lecturers as follows:

- Lecturers who are more practical and proficient in English and IT skills are needed.
- Teaching activities and teaching methods need to be improved.
- More experienced teachers who can share their experiences are needed.
- Lecturers should have the same standard in teaching and grading.
- More foreign professional lecturers.
- International students be provided good care.
- More interactive classes rather than just lecture base classes.

Feedback on the curriculum has been given as follows:

- More elective courses should be provided.
- More internship projects are needed.
- More activities, research methods, case studies, practice, and applications are needed in teaching and learning.
- More famous guest speakers should be invited to share their experiences with students.

- More schools and programs are needed.
- More innovative and up-to-date technologies.

Feedback on the student development activities has been given as follows:

- More activities that improve students' leadership and management skills.
- More extra-curricular activities should be provided.
- More activities for international students should be provided.
- The internet should be more stable.

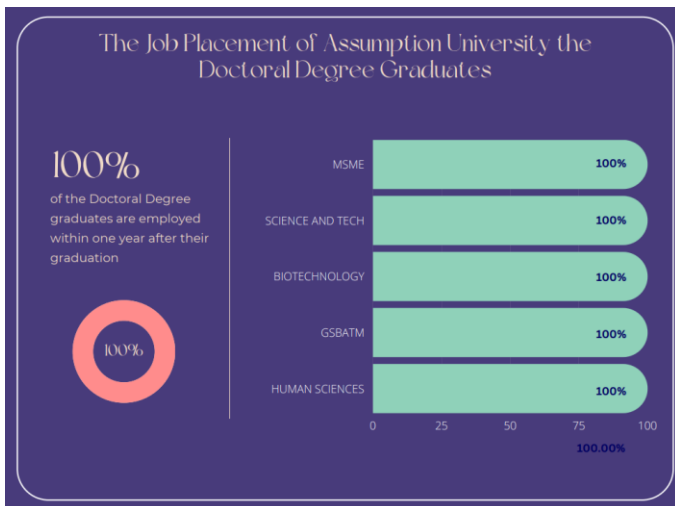

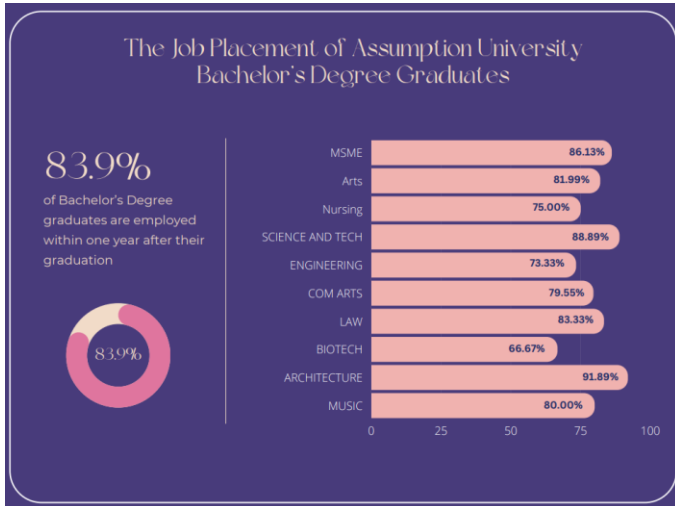

Recommendations

1. The most severe problem the graduates face is the lack of job information (83.8%). This problem is a recurring issue. Assumption University should provide them with more information in the University's Career Week. Especially Assumption University should have a job-related resources, such as a website or other channels, to provide a convenient channel for graduates.

2. The research survey found that 23.2% of the Bachelor's Degree graduates do not work in an occupation that corresponds to their field of study, and a third of Bachelor's Degree graduates use their knowledge to work at the medium level (38.3%). Thus, Assumption University should develop the courses in response to the current labor market needs.

3. Assumption University should offer a diverse range of elective courses that can develop both hard skills and soft skills that are essential for success in the workforce.

Rationale

All higher education institutions in Thailand have four main missions, namely, producing graduates, conducting research, providing academic services, and promoting Thai arts and culture. Assumption University as a higher education institution has tried its best to complete these missions at a high standard level.

Producing graduates is directly associated with teaching and learning. In order to conduct good and effective teaching, all instructors, apart from knowing and loving the subjects they teach, need to know and love their students. The instructors need to know the needs and the problems of their students in order to help them to cope with rapid changes especially in the labour market in the Age of Globalization. The awareness of the students' needs and problems will help the instructors to update their courses and improve their teaching methodologies and techniques.

This is the reason why a job placement survey needs to be conducted. This kind of survey is conducted every year with every class of the graduates. It becomes a normal practice. Assumption University assigns the Institute for Research and Academic Services to do it.

The survey is composed of four parts. Part I deals with the profiles of the respondents. Part II, III, and IV deal with the information about job placements, the information about further studies, and recommendations respectively.

This year the survey was conducted with the Class 50 of graduates at all levels. The results of the survey were given to all people concerned.

Objectives of Research

1. To survey Job Placements of Assumption University Graduates Class 50.
2. To survey their intentions to study for a higher degree.

Expected Benefits

1. To know job placements of the graduates at all levels in the labor market.
2. To prepare graduating students to enter the labor market and improve their qualifications.
3. To know where they intend to go for further studies.
4. To use the information to improve the quality of education.

Population and Samples

The samples in this study included the graduates from both undergraduate and graduate programs of Class 50. Out of the total Number of graduates 2,511, 1,858 were Bachelor's Degree, 551 were Master's Degree, and 102 were Doctoral Degree graduates.

Restrictions of Research

A Job Placement Survey of Assumption University Graduates collected data from graduates on November 14, 2022 to February 3, 2023. If the data had been collected at a longer period, the employment rate would have been higher.

Definitions

“**Graduates**” means graduates of Class 50 at all levels.

Research Tools

The Institute for Research and Academic Services designed and established the questionnaire. The survey was conducted via online.

Data Analysis

The data was analyzed through descriptive statistics such as Numbers, percentages, averages, and standard deviations.

Study Results

The results of the survey are classified into four parts:

Part 1 Profiles of the respondents

Part 2 The information about job placements

Part 3 The information about further studies

Part 4 The recommendations of the respondents

Part 1: Profiles of the Respondents

1.1 Gender

Out of the total Number of 2,311 respondents, 60.8% are female, and 39.2% are male. (see Table 1).

1.2 Education Level

With respect to the educational levels of the graduates, 74.0% (1,858 graduates) are Bachelor's Degree graduates, 21.9% (551 graduates) are Master's Degree, and 4.1% (102 graduates) are Doctoral Degree ones.

1.3 The Response Rate

The response rate of Assumption University Graduates, 73.6% (1,700 graduates) are Bachelor's Degree graduates, 22.3% (516 graduates) are Master's Degree, and 4.1% (95 graduates) are Doctoral Degree ones (see Table 2 - 4).

Part 2 : The Information about Job Placements of the AU Graduates

2.1 Job Status

It is found that 83.88.% (786 graduates) of Bachelor's Degree graduates are employed (score = 4.19) (see Table 6).

For information on job finding of the Bachelor's Degree graduates, it is found that most of them have got their jobs from the websites (54.6%), followed by friends (42.2%) and parents (36.4%) (see Table 5).

When asked about the course or knowledge to support their career path, the Bachelor's Degree graduates recommend Practicum/Internship (49.6%), Computer (47.3%), and English language (45.3%) as described in Table 5.

For Master's Degree graduates, 93.75% (390 graduates) of them are employed (score = 4.69) (see Table 23).

For information on job finding of Master's Degree graduates, it is found that most of them have got their jobs from the websites (54.5%), followed by friends (36.4%) and parents (26.7%) (see Table 5).

When asked about the course or knowledge to support their career path, the Master's Degree graduates recommend English language (44.2%), Research methodology (39.9%) and Practicum/Internship (38.2%) as described in Table 5.

For Doctoral Degree graduates, 100.0% (88 graduates) of them are employed (score = 5.00) (see Table 40).

For information on job finding of Doctoral Degree, it is found that most of them have got their jobs from websites (64.2%), followed by friends (26.3%) and Lecturer of AU (15.8%) (see Table 5).

When asked about the course or knowledge to support their career path, the Doctoral Degree graduates recommend Research methodology (51.6%), followed by Practicum/Internship (38.9%), and English language (27.4%) as described in Table 5.

2.2 Job Nature

Jobs are divided into five categories: Government Officials, State Enterprise Employees, Private Firm Employees, Entrepreneurs/Self-employed, and International Organizations. The results of data analysis are described as follows:

When considering the nature of job, 58.7% of the Bachelor's Degree graduates of Assumption University work in private firms, 22.6% as entrepreneurs/self-employed, 10.2 in the international organizations, 6.1% as state enterprise employees, and 2.4% as government officials (see Table 7).

54.9% of the Bachelor's Degree employed graduates work in international organizations (40.1% work in International Firm and 14.8% work in International Organizations) and 45.1% of them work in Thai Organizations (Table 8).

When considering the types of work in the private companies, it is found that 15.6% belongs to finance-related industry (banks, insurance, brokerage firms, etc.), 15.2% to marketing communication-related industry (advertising, PR, media), and 13.7% professional services industry (research, consultancy, health care, education), (see Table 9).

The reasons why Doctoral Degree graduates have decided to have further studies include job requirement (63.5%), oneself wish (27.0%), and parents'wish, obtain scholarship (4.8%) (see Table 53).

3.3 Problems of their Further Studies

Considering the problems of further studies, it is found that Bachelor's Degree graduates, all of them have no problems (100.0%) (see Table 22).

For Master's Degree and Doctoral Degree graduates, their problems include financial problems (1.5%) and (4.8%) respectively (see Table 39, 54).

Part 4 : The Suggestion of Assumption University Graduates

Part 4: The Suggestion of Assumption University Graduates

4.1 The class 50 of AU Graduates have given recommendations for improving lecturers as follows:

- Lecturers who are more practical and proficient in English and IT skills are needed.
- Teaching activities and teaching methods need to be improved.
- More experienced teachers who can share their experiences are needed.
- Lecturers should have the same standard in teaching and grading.
- More foreign professional lecturers.
- International students be provided good care.
- More interactive classes rather than just lecture base classes.

Feedback on the curriculum has been given as follows:

- More elective courses should be provided.
- More internship projects are needed.
- More activities, research methods, case studies, practice, and applications are needed in teaching and learning.
- More famous guest speakers should be invited to share their experiences with students.
- More schools and programs are needed.
- More innovative and up-to-date technologies.

Feedback on the student development activities has been given as follows:

- More activities that improve students' leadership and management skills.
- More extra-curricular activities should be provided.
- More activities for international students should be provided.
- The internet should be more stable.

Recommendations

1. The most severe problem the graduates face is the lack of job information (83.8%). This problem is a recurring issue. Assumption University should provide them with more information in the University's Career Week. Especially Assumption University should have a job-related resources, such as a website or other channels, to provide a convenient channel for graduates.

2. The research survey found that 23.2% of the Bachelor's Degree graduates do not work in an occupation that corresponds to their field of study, and a third of Bachelor's Degree graduates use their knowledge to work at the medium level (38.3%). Thus, Assumption University should develop the courses in response to the current labor market needs.

3. Assumption University should offer a diverse range of elective courses that can develop both hard skills and soft skills that are essential for success in the workforce.
