Preface

National Education Act B.E.2542 and Amendments B.E. 2545 Section 47 says :
“There shall be a system of education quality assurance to ensure improvement education quality and standards at all levels. Such a system shall be composed of both internal and external quality assurance. The system, criteria, and methods for quality assurance shall be as stipulated in the ministerial regulations.”

Assumption University has established its criteria for quality assurance even before the announcement of the National Education Act B.E. 2542 because it has realized the importance of educational quality and standards especially at the international level.

One of the criteria which can help the University to improve its performance is a survey of graduated students' satisfaction. The survey of satisfaction becomes a practice of the University conducted by the Institute for Research and Academic Services.

We do hope that this satisfaction survey of the graduated students in the academic year 2024 will be of interest and usefulness to all people concerned.

EXECUTIVE SUMMARY

The main objective of this research, entitled *A Study of AU Graduates' Satisfaction toward Program Quality (Class 52)*, was to investigate the satisfaction of Assumption University graduates of Class 52 on seven aspects of the University's performance: Programs, Lecturers, Teaching and Learning, Evaluation, Student Advising, Extra-curricular Activities, and Learning Development/Improvement. The samples in this study included the graduates from both undergraduate and graduate programs of Class-52. Out of the total number of 1,832 graduates, there were 1,229 Bachelor's degree, 358 Master's degree, and 245 Doctoral degree graduates. The Online Graduates Registration (OGR) System was employed in the data collection procedure, and descriptive statistics including numbers, percentage, mean, and standard deviation were used in the study as well. The findings were summarized as follows:

Profiles of the Respondents

Out of the total number of 1,832 respondents, the percentages of the Bachelor's degree, Master's degree, and Doctoral degree graduates were 67.1% (1,229), 19.5% (358), and 13.4% (245) respectively.

Findings

The responses from the OGR survey questionnaires were analyzed, and the findings were presented according to the seven aspects of the University's performance.

Programs

The respondents' satisfaction with the aspect of Programs was rated at a high level with an average score of 4.37. The respondents were most satisfied with the Courses that were offered to students (4.42). The respondents were least satisfied with the knowledge acquired that enables them to get jobs easily (4.33). The University should consider improving this aspect as a first priority.

Lecturers

The respondents' satisfaction on the aspect of Lecturers was rated at a high level with an average score of 4.44. The respondents were most satisfied with their knowledge and experiences that are related to the courses they taught (4.48). , their taught the syllabus contents within the time-frame given. (4.47), and their encouraged students to engage in self-directed learning and self-development. (4.45) respectively. The lowest average score (4.40) was about the lack of "Lectures have utilized effective teaching methodology." It should be considered as a top priority.

Teaching and Learning

The respondents' satisfaction with the aspect of Teaching and Learning was rated at a high level with an average score of 4.40. The respondents were most satisfied with A clear study plan is provided to students (4.43), and Teaching and learning activities encourage application of knowledge acquired. (4.42). The lowest scores of graduated students' satisfaction were 4.37, and 4.32 and belonged to the Items 13, and 14 respectively. The University should consider improving these 2 indicators of teaching and learning as a top priority.

Evaluation

The respondents' satisfaction with the aspect of Evaluation was rated at a high level with an average score of 4.40. The respondents were most satisfied with the evaluation methods and assessment of performance are fair, transparent and verifiable.(4.41) The correspondence between the evaluation methods and the objectives of the course has got the lowest score of 4.40, and evaluation methods and assessment of students' performance carried out as specified in the course syllabus(4.40). Thus it should be improved as a first priority of this aspect.

Student Advising

The respondents' satisfaction with the aspect of Student Advising was rated at a high level with an average score of 4.43. Both indicators of this aspect, namely, advice and guidance when needed, and advice regarding learning, study plan, registration, and other problems, have got the same score of 4.43. Thus, the high level of satisfaction should be maintained or further increased.

Extra-curricular Activities

The respondents' satisfaction with the aspect of Extra-curricular Activities was rated at a high level with the average score of 4.33. The respondents were most satisfied with the establishment of networks have got the highest scores of 4.36. The lowest scores of 4.30 and 4.33 belong to the last orientation and The freshmen orientation provides information about University respectively. Thus, the University should considered improving these 2 indicators of Extra-curricular Activities as priorities.

Learning Development/Improvement

The respondents' satisfaction with the aspect of Learning Development/Improvement was rated at a high level with an average score of 4.48. The respondents were most satisfied with interpersonal skills and responsibility (4.51), and analytical skills (4.49) respectively. The graduates were least satisfied with morals and ethics (4.45). Thus, the University should put an emphasis on how to help students improve their morals and ethics.

Recommendation

The evaluation showed all aspects with a high score level. However, the University should consider the following issues which have lower scores for improvement.

- The last Orientation must provide students with information on how to succeed in a job or career. (4.30)

- Classrooms, libraries, and information technology support for teaching and learning (4.32)

- Knowledge acquired that enables them to get jobs easily. (4.33)

In addition the AU should have to promote the following issues which have highest score.

- Interpersonal skills and responsibility (4.51)

- Analytical analysis (4.49)

- Lecturers have knowledge and experience related to the courses they taught.(4.48)

- Lecturers have taught the syllabus contents within the time-frame given. (4.47)

Rationale

A higher education institution is responsible for producing highly qualified persons, creating a body of knowledge, and promoting the development of the country. Higher education institutions have four main missions: teaching and learning or producing graduates, doing research, giving academic services to society, and preserving arts and culture. According to the National Education Act BE 2542 (1999), quality assurance is a must for all educational institutes at all levels. Section 47 says, "There shall be a system of educational quality assurance to ensure improvement of educational quality and standards at all levels. Such a system shall be comprised of both internal and external quality assurance. The system, criteria, and methods for quality assurance shall be as stipulated in the ministerial regulations."

Since its inception Assumption University has realized the importance of quality assurance. Hence it has developed its own systems and mechanisms for the sake of excellence and standards. For quite some time the university has been annually conducting satisfaction surveys of its graduates. The results are used for improving University's performance. The survey includes seven components, namely, Programs, Lecturers, Teaching & Learning, Evaluation, Student Advising, Extra-curricular Activities, and Learning Development & Improvement. This year the survey was conducted with the graduates of Class-52.

Research Objectives

1. To study the satisfaction level of the graduated students of Class-52, toward the program quality with respect to the 7 components.
2. To compare the program quality of each graduate level from the perspective of graduated students.

Scope of Research

This research was conducted to study the perception of the graduated students of Class-52. The data was collected from the graduated students at all program levels.

Definitions of Terms

Graduates refer to the students of Class-52 at all levels from all faculties. Assumption University's program quality refers to the quality of the seven components of Assumption University.

Expected Outcome

1. AU Graduates' Satisfaction scores toward Program Quality.
2. The results serve AU quality assurance and development.

Population and Sample

The total number of 1,832 respondents includes 1,229 students from Bachelor's Degree program, 358 students from the Master's Degree, and 245 Doctoral Degree graduates. Details are provided in Table 1 to Table 3.

Research Tools

The tools used in this survey are the questionnaires using a 5-level Likert Scale. The survey contains research questions concerning the seven aspects of the program quality, namely, Programs, Lecturers, Teaching and Learning, Evaluation, Student Advising, Extra-curricular Activities, and Learning Development /Improvement.

Scoring and Interpretation

The researchers used five levels of the Likert Scale to measure the satisfaction of students of Assumption University. The five levels are described as follows:

(Satisfaction)	(Scoring)
Very much	5
Much	4
Moderate	3
Little	2
Very little	1

Score Interpretation

1.00-1.50 = very low level

1.51-2.50 = low level

2.51-3.50 = moderate level

3.51-4.50 = high level

4.51-5.00 = very high level

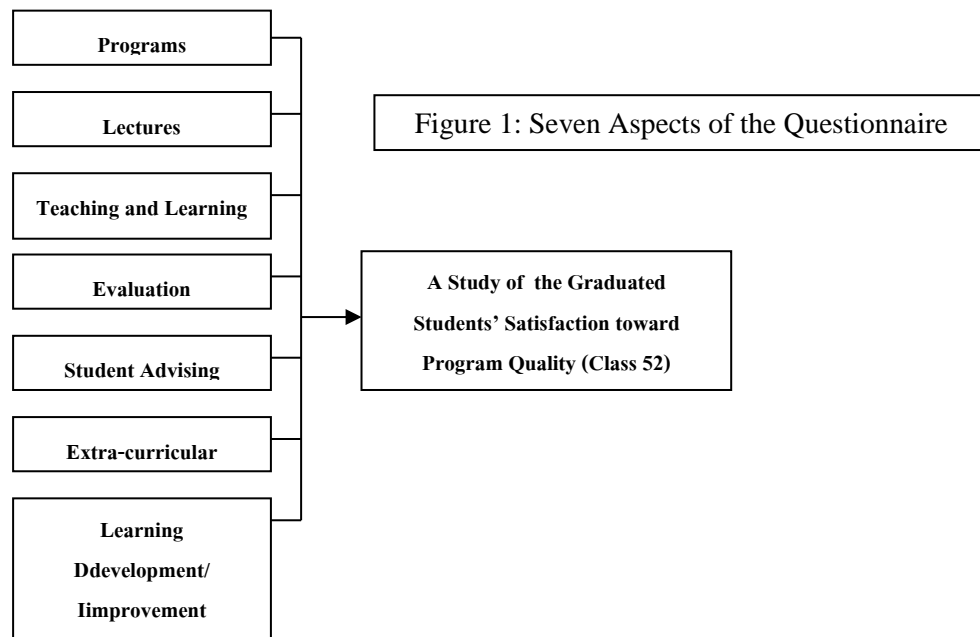

Data Collection

The researchers collected data by using the online questionnaire called the “Online Graduates Registration (OGR).” The graduated students were required to answer the entire questionnaire as a requirement prior to the graduation registration.

Data Analysis

The researchers used the SPSS for Windows statistical analysis program for analyzing data. Descriptive statistics, such as percentage, mean, and standard deviation were used in data analysis. The study was conducted to evaluate the quality of the University programs

Survey of Seven Aspects

Research Results

The results of the survey are described in three sections as follows:

Part 1: Basic Information of the Respondents.

Part 2: Satisfaction of the University Program Quality.

Part 3: Satisfaction Comparison of the Three Levels

Part I: Basic Information of the Respondents

The basic information of the respondents is shown in the following table.

Table 4: Numbers and Percentages of the Respondents' Personal data

Variables	Characteristics	Amounts	Percentages
Sex	Male	699	38.2
	Female	1,133	61.8
	Total	1,832	100.0

	Master's Degree	358	19.5
	Doctoral Degree	245	13.4
	Total	1,832	100.0

Out of the total number of 1,832 respondents, 61.8% are female, and 38.2% are male. Out of the total number of respondents, the ratios of the Bachelor's Degree, Master's Degree, and Doctoral Degree graduates are 67.1%, 19.5%, and 13.4% respectively.

Part II : Satisfaction of the University Program Quality

The satisfaction survey was conducted among the Assumption University graduates of all programs. The survey explored their views on the seven aspects (Figure 1) Programs, Lecturers, Teaching and Learning, Evaluation, Student Advising, Extra-curricular Activities, and Learning Development / Improvement. The results are shown in Table 5 – Table 25.

Interpretation of the Score: (1.00-1.50 = Very low), (1.51-2.50 = Low), (2.51-3.50 = Moderate), (3.51-4.50 = High), (4.51-5.00 = Very high)

Table 5: It demonstrates that the average overall score of the bachelor's degree graduates' satisfaction toward the Programs is 4.32 (High). The highest satisfaction score is 4.36 (high) on the "Courses offered are useful to students." In summary, the average scores between (4.31) "Contents are up-to-date." and (4.28) "Knowledge acquired enables you to get a job easily" are still at a high level of satisfaction and not significantly different.

When considering individual schools, graduates from Theophane Venard School of Biotechnology is most satisfied with the Programs with a score of 4.51 (Very high). The runner-up scores belong to Albert Laurence School of Communication Arts 4.38 (High), and Martin de tours school of management and Economics 4.33 (High) respectively.
